ABOUT

Full-Stack Developer

I recently graduated with a B.Sc. in Computer Science, achieving a GPA of 87, with a focus on Data Science and Machine Learning. I am now actively seeking a full-stack position where I can leverage both my academic background and prior experience. **After fulfilling my military reserve duty for 150 days since October 7, I am eager to return to the workforce and contribute to impactful projects.**

EDUCATION

The Academic College Of Tel-Aviv,Yafo • B.Sc Computer Science • GPA-87   Oct 2021 – Oct 2024 • Tel-Aviv, Israel

During my studies, I specialized in Data Science, focusing on applying machine learning and deep learning techniques to solve real-world problems. I developed a strong foundation in data structures, algorithms, and object-oriented programming (OOP) principles, which equipped me to create efficient and optimized solutions for various technical challenges.
I excelled in courses such as:

- **Advanced Programming in C Language:** 92
- **OOP and C++:** 93
- **OOP in C# and the .NET Framework:** 94
- **Data Structures:** 91
- **Machine Learning with Python:** 91
- **Introduction to Machine Learning**: 100
- **Deep Learning:** 91

EXPERIENCE

MonkeyTech • Full-Stack Developer   July 2017 – Sep 2018 • Tel-Aviv, Israel

Developed and maintained innovative web and mobile app solutions using React, React-Native, Ruby on Rails, PHP, AWS, and Herok. Played a key role in the development of 4+ large-scale projects and numerous mid-size projects, including:

- **Safe-Lane**: (Road safety enforcement) Developed the app's API server, microservices, and the app's admin dashboard. Implemented CI/CD pipelines, automating testing and deployment processes, resulting in a 30% increase in software deployment speed.
- **Forum-Club:** (Nightclub visitor app) Delivered new features for the app's API server and admin-dashboard ensuring seamless user experience to more than 50K users. Integrated third-party services like Eventer.
- **Yad2-Jobim:** (Part-time job finder) Contributed to API server and admin dashboard development, improving several views performance by implementing data tables and indexing the database.
- **Ontopo:** (Table reservation app) Took part in the development of 10+ web pages, creating a scalable and adaptable UI foundation that Ontopo's developers used as a base for integration into various UI frameworks.

BitGem • Full-Stack Developer   Nov 2016 – June 2017 • Tel-Aviv, Israel

Led the web development department, utilizing PHP , Vanilla JavaScript, jQuery, Bootstrap, CentOS, and Objective-C to develop and maintain web and mobile applications including:

- **Toyota-Israel Dealerships Websites System:** Led the development from scratch of a web platform for 28 dealerships, each with a custom CMS, features and requierments. Managed 20+ client meetings, ensuring tailored solutions and high customer satisfaction.
- **Ituran:** (Vehicle tracking app) Contributed to the development and maintenance of the Ituran iOS mobile app, enhancing UI of 2 existing screens and resolving technical issues using Objective-C.

MILITARY SERVICE

IDF • Combat Soldier and Company Sergeant Major   Aug 2012 – Aug 2015 • Israel

Completed training at Nahal Brigade - 931 Infantry Battalion. Served as a company sergeant major and commander at Bislamach Brigade - 17 Infantry Battalion, leading and training soldiers in combat.

SKILLS

- **Back-End:** Node.js • Ruby On Rails • PHP • Postgres • SQL • Mongo • Redis
- **Front-End:** HTML • CSS • Sass/Scss • Tailwind • JavaScript • TypeScript • React/React-Native • Redux
- **Cloud Services & Deployment:** AWS • Heroku • Docker • Linux
- **Familiar With:** Java • Python • C • C++ • C#
- **Testing:** Jest • Selenium • Capybara
